## HEALTH OFFICER'S REPORT

---

To the Citizens of Newport:

During the past year Newport has again been particularly fortunate in being free of any epidemic of contagious diseases. Either luck or good fortune may, of course, have been working in our favor, but without the cooperation of the school and district nurse, the teachers in the schools, and physicians, and most important of all in many cases the mothers themselves, the story might easily have been a different one. I feel quite sure that each year a much larger percentage of mothers keep their children at home and away from other children at the first sign of a dangerous symptom which oftentimes has the appearance of a simple cold. Such cooperation and watchfulness will always pay good dividends.

The list of contagious diseases reported during the year follows: Measles 26, chicken-pox 6, scarlet fever 5, mumps 4, whooping cough 3.

With a very few exceptions the cooperation of the people has been obtained with relation to separating garbage from other refuse and not sending the garbage to the dump. The town provides a garbage collector and this should be kept separate and saved for him. The town dump is probably in the best condition in its history and the credit for same is due to its Superintendent, Arthur Lee Gamash.

Under the supervision of the State Board of Health a five day Dental Clinic was held for the pre-school children of Newport during the past year. The clinic was held at Dr. Keane's office. There were 41 children who attended, with the following corrections made: 72 copper cement fillings, 172 silver nitrate treatments, 9 extractions, 13 cleanings, making a total of 266 corrections.

Since the organization of the New Hampshire Tuberculosis Association in 1916, Christmas Seal Funds have been the main support of its services for the prevention and cure of the disease.

Year after year as a result of the teaching of patients in sanitary disposal of their sputa, billions of germs have been destroyed and families and residents in the community spared from infection by these germs. Each year has seen a reduction

in the death rate and also in the addition of many names to the list of cured patients from the sanatoriums and in the homes. During the year there were held two free diagnostic clinics. Of 63 persons examined 29 were given the tuberculin test and 19 patients, new and previously examined, were given the benefit of x-ray of the chest. As a result two new active cases of tuberculosis have been placed under treatment.

There are 85 patients under the supervision of the clinic and nursing service. Six patients, one child and five adults are receiving care at the sanatoria.

Respectfully submitted,

EDWARD J. MALEY,  
Health Officer.

## REPORT OF CHIEF OF FIRE DEPARTMENT

---

To the Selectmen of Newport:

I herewith submit my report as Chief of the Fire Department for the year.

The past year has been the most active year the Department has had in its history. It has responded to 243 calls, 5 of which were out-of-town calls, 18 bell alarms, 16 brush and 205 still alarms, and damage amounting to \$13,129.94.

The apparatus is all in good condition and supplies sufficient for equipment, although there will have to be additions made to meet requirements that might arise under the war conditions; however, the extra expense would not necessarily amount to a great sum unless extra apparatus is required.

We have sufficient hose to meet requirements and it is in good condition. It seemed good judgment to make a purchase of 500 feet of rubber lined hose, as it was doubtful if it could be procured in reasonable time providing we should lose any by burning or bursting in case of fire. For this reason there was ordered in December 500 feet and it has been delivered since the closing of the town accounts and funds should be provided for the payment at the annual meeting of the town.

There has been a number of changes in the personnel of the department owing to war conditions and due to the fact that the changes brought in untrained men, it seemed advisable to increase the membership to 40 men. The firemen are to be called upon for more services than usual on account of the war conditions.

We have been fortunate in the matter of brush fires during the year, having 16 calls, and in these calls fire has covered about 25 acres and the largest one was spread over a number of acres before discovery. The small acreage burnt over is owing to prompt response and having enough men to meet the situation.

We shall have to have about the usual amount of funds to carry the year as usual.

I wish to thank the Board of Selectmen, also members of the Fire Department for the fine cooperation I have received in the past year.

GEORGE E. LEWIS, Chief.

# SUPERINTENDENT'S REPORT

---

To the Newport School Board:

I herewith submit my eighth annual report as Superintendent of Schools.

## ATTENDANCE

Out of a total average membership of 1,082.04 last year, there were absent on an average every school day about 86 pupils. This is a larger absence than usual. Much of it was due to the prevalence of mumps and colds. In this connection it is interesting to look at the record of communicable diseases which have afflicted our schools in the past seven years. The following table is based on the monthly reports of our school nurse. There were, doubtless, additional cases which were not reported to a doctor or a nurse.

## COMMUNICABLE DISEASES

Year	Whooping		Mumps	Chicken		Measles
	Diphtheria	Cough		Pox	Scarlet Fever	
34-35		45		37	10	36
35-36					5	152
36-37		54		1	19	2
37-38			1	11	3	
38-39		5		52	3	
39-40				2		137
40-41			366	1	3	2

It is a cause of great satisfaction that there have been no cases of diphtheria during this period. Most every year there are a few cases of scarlet fever, but they do not reach the proportion of an epidemic. During the present school year we have had several cases of whooping cough, chicken pox and measles.

## TEACHING CORPS

During last spring and summer there was an unprecedented number of changes in the corps of teachers in this Union. Twenty-one new teachers had to be hired. The search for teachers, interviewing candidates, correspondence, board meetings, and issuing contracts, consumed uncounted hours. Newport's

share in this turn-over included four new teachers in the high school, four in the grades, and a music supervisor. In addition to the above changes in the teaching course, we have a new clerk in the superintendent's office. Miss Lucille Nelson, who has successfully filled this position in the past five years resigned last June. Her place is taken by Miss Joan C. Catsam.

### TRANSPORTATION

The transportation of school children has been somewhat consolidated. The route of the Unity Road bus has been extended from Reed's School to Hendrickson's house, taking care of all the children on that road. The East Mountain bus now goes out Maple Street, the Concord Road, Rowe's Corner, Blaisdell's Corner, returning via way by the Goshen Road. The number of children in the vicinity of the old Concord Road and Rowe's Corner has so increased that an ordinary sedan which formerly served this section was no longer adequate.

Mr. Judson Brooks, in addition to serving the children on the River Road to Claremont, also carries the children on the Ryder's Corner Road to the Guild, Richards and Primary schools.

A new schedule was made for the buses indicating the time at which each bus is expected to leave stated places on the morning trip. The Guild-Kelleyville bus this year is taking the Kelleyville pupils first on the morning trip. In other years this bus has taken the Guild children first in the morning leaving them at the Richards School at about 7:35. This meant that the children had to wait approximately fifty minutes for the opening of school. This seemed rather unfair, especially since the ride from Guild consumes only about five minutes. On the afternoon trip, the Guild pupils are taken home first. This means only a few minutes delay for the Kelleyville pupils.

### REPAIRS

#### Towle High School

Rooms 1, 2 and 3, and the connecting corridor on the first floor were redecorated.

The stage curtains were taken down and cleaned. This improves their appearance. The track on which the front curtain runs was straightened.

#### Primary School

A new maple floor was made in Miss Mahoney's room.

During the summer of 1941 a new heating plant was installed in the Town Hall to take care of the Town Hall, County Court and offices, and the Primary School. The Primary School

has been heated by means of three hot air furnaces and a small steam boiler. In all these heating units hard coal was used. About 70 tons a year were required, costing approximately \$1,000.00. On two or three occasions we have narrowly averted a serious fire on account of over-heated flues. It seemed advisable to be connected with the new central heating plant because it promised to be more efficient and completely eliminated the danger of fire as far as furnaces are concerned. We are certainly getting plenty of heat, but it is too early yet to tell exactly how much the annual cost will be.

#### Kelleyville School

The north side of the roof of this building was reshingled.

#### North Newport School

A new floor was made in the wood shed. Most of the old one had rotted away.

There are many reasons for increasing teachers' salaries at this time. First, there has recently been an increase in the cost of living of at last eight per cent. Second, the salaries paid in Newport have been below the state average for the past eight years at least. Third, our schools are understaffed. This situation makes it necessary for our teachers to be burdened with unusually large classes. Fourth, our per pupil costs, both elementary and high school, are far below the state average. Fifth, wages in other occupations are very generally being raised to meet present conditions. Sixth, the teachers have repeatedly asked for increases and have been given to understand that an adjustment would be made.

The School Board and Superintendent have made a rather extensive study of the salary situation in Newport and other New Hampshire towns of comparable size and wealth. This study clearly indicates that a readjustment of salaries is, in all fairness, really necessary. For the year 1942-43 the School Board requests an increase of eight per cent in the amount of money assigned to teachers' salaries. Adjustments on individual salaries will be made according to training, experience, and merit. Another year it is planned to adopt a new schedule which will fit modern conditions and enable us to attract and hold good teachers.

#### STATE AID

In 1939 our expenditure for elementary schools was such in comparison to our valuation that Newport became entitled to State Aid. Application was, therefore, made and a small amount of state aid was allowed, but because of lack of funds,

the state was not able to grant us any money in December, 1940. In December, 1941, the state granted us aid in the amount of \$923.21. The School Board believes that this money should be applied directly on the next year's expenses thereby reducing the school appropriation by that amount. Accordingly the sum of \$923.21 is included in the income for the year 1942-43 as will be seen in the printed report.

We are completing another year of school work under an ever-increasing strain of war-time economy. Our duties in days to come will undoubtedly become more arduous, but we can face them with confidence and courage in the assurance that all the school personnel—school board, teachers, pupils—will work together with the same good-will and cooperation which they have shown in the past.

Respectfully submitted,

ALFRED W. SMITH,  
Superintendent of Schools.

# REPORT OF THE HEADMASTER OF TOWLE HIGH SCHOOL

January 8, 1942

---

Superintendent A. W. Smith,  
School District,  
Newport, New Hampshire.  
Dear Sir:

I am submitting herewith the Annual Report for Towle High School, together with a supplement of statistical tables as follows:

Table I	Enrollment by Grades
Table II	Tuition Pupils
Table III	Attendance Record
Table IV	Test Record
Table V	Honors List—Class of 1941
Table VI	Perfect Attendance 1940-41
Table VII	Post-Secondary Statistics
Table VIII	Financial Report of Student Activities
Table IX	Results of the Junior Prize Speaking Contest

In the interests of economy in both time and materials, I will let the statistical tables speak for themselves.

It is significant that in a total of 192 young men who have graduated from this school in the classes of 1935 through 1941 inclusive, there are forty-one serving in the armed forces of the United States. This represents twenty per cent of the male graduates from the last seven classes. While our entire local and national effort is directed toward the successful culmination of the war, we must not lose sight of the continued necessity for academic training. The education of our youth through the maintenance of free public schools is no less imperative in these critical times than in times of peace, and therefore, provisions must be made so as not to impair this public service for it is one of the fundamental principles underlying the American way of living which we are now struggling to maintain.

Respectfully submitted,

ERNEST M. PERKINS, Headmaster.

## NO-SCHOOL SIGNAL

When the weather is so bad that it is inadvisable for children to attend school, the no-school signal will be sounded by the fire whistle at 7:30 in the morning. The signal is 2-2-2. When it is necessary to close school in the morning it will mean that school sessions will be omitted all day. It would be practically impossible to get bus and tuition pupils to attend an afternoon session only.

In addition to the fire signal the electric lights, through the courtesy of the New Hampshire Public Service Company, will be turned on for a few minutes at the time the no-school signal is sounded.

On no-school days a pre-arranged system of telephoning gives notice to those who transport school children, to teachers, and as far as possible, to out-of-town tuition pupils. Persons who are doubtful about the no-school signal should call the superintendent or some other member of the school department rather than the fire station. Unnecessary calling of the fire department might interfere with emergency calls which should reach the fire department quickly.

## REPORT OF SCHOOL NURSE

---

Mr. Alfred W. Smith,  
Superintendent of Schools,  
Newport, New Hampshire.

Dear Sir:

I herewith submit my annual report as school nurse.

It is with regret that I report to you that we have been plagued the past year with epidemics of measles, chicken-pox, and whooping-cough. This results in a lowering of our record for school attendance. Otherwise, the year has been uneventful. The dental and throat clinics have been carried on as usual. Free milk has been and is still being furnished to under-nourished children. A large record of home visits has been necessary and many fine results of the same have been achieved. It is my belief that children are coming to school better fed and clothed than for some time past, no doubt due to the increase in employment and wages. Many children show signs of nerve strain which I feel may be alleviated by as little discussion of war affairs in the daily lives as possible.

In closing, may I express to you and your teachers, my appreciation of the cooperation and support accorded me.

Respectfully yours,

ANNA DONOVAN, R. N.
